OFFICE SYSTEM DRAWER 710

PRODUCT PRESENTATION

Drawer made from Polysterene for pedestals with ball bearing slides or roller slides.

The slides are concealed in the drawer for design and protection against dust. The drawer is made of fully recyclable polysterene and thus environment friendly.

BENEFITS

- Fully recyclable for environment friendly use.
- Snap-on function for quick and steady fitting inside cabinets.
- Fits with 380 mm or 392 mm inside width of cabinets.
- Adaptable to most locking systems with our accessories.
- Good design with concealed sides. Also possible to use our divider to make smaller compartments.
